**Strategic Materials Selects Conexus' Compliance Management Platform**

*- Platform to automate compliance, provide cost savings, drive financial productivity -*

Louisville, Ky., Jan. 28, 2010 – [Conexus, LLC](#) announced today that Strategic Materials, a leading North American recycling company with facilities in the United States, Canada and Mexico has selected its suite of products, including its compliance management and operating process platform, [CONEXXUS®](#). CONEXXUS provides Strategic Materials with an integrated document retention, manual process automation and monitoring system.

Jeffrey T. Reibel, Founder and Chief Executive Officer of Conexus, said, "We are extremely excited to have been selected by Strategic Materials to help automate compliance, provide tangible cost savings and drive financial productivity. Strategic Materials' commitment to efficient, low cost operations while maintaining the highest levels of quality fits perfectly with the Conexus software solution. We look forward to teaming with Allan Goertz, Vice President of Finance for Strategic Materials, and his staff as they forge through compliance issues."

Goertz said, "We reviewed several alternative solutions for our document retention, process automation and monitoring needs and were very impressed with the flexibility and overall functionality designed into Conexus' platform relative to the other solutions. The Conexus folks were extremely patient and helpful during our evaluation and decision-making process in answering our questions and demonstrating how the software can handle our specific needs. We look forward to working with the Conexus team during the upcoming implementation and for ongoing support."

**About Strategic Materials**

Strategic Materials (SMI) is a leading North American recycling company, with facilities located across the United States, Canada and Mexico. SMI is the largest glass processor and one of the top ten independent plastics processors in North America. SMI operates three divisions: Glass Processing (the "Glass Division"), Plastic Processing (the "Plastics Division") and Container Collections (the "Collections Division").
