FOR IMMEDIATE RELEASE

**CONEXXUS ANNOUNCED AS RECIPIENT OF INVESTMENT FUNDS
FROM KENTUCKY SCIENCE AND TECHNOLOGY CORPORATION**

Conexus receives \$500,000 equity investment from Kentucky Science and Technology Corporation.

Louisville, KY – Nov. 26th, 2008 – Conexus announced as a recipient of \$500,000 equity investment from The Kentucky Science and Technology Corporation (KSTC).

This investment is part of a nearly \$2.9 Million total funding commitment in thirteen new and growing Kentucky companies from the Kentucky Enterprise Fund, a program that invests public funds in promising technology companies in the Commonwealth of Kentucky. The Kentucky Enterprise Fund invests in technology and innovation-driven Kentucky companies. The Funds provide one-time grants and equity investments ranging from \$250,000 to \$750,000, which may be matched dollar-for-dollar by the company via private equity investments. KSTC manages the Fund through a partnership with the Kentucky Council on Postsecondary Education.

"The technologies being developed by these thirteen companies demonstrate that despite the difficult global economic challenges, entrepreneurship and innovation are alive and thriving in Kentucky," said Kris Kimel, president of KSTC.

Upon receipt of the funding announcement, Jeffrey T. Reibel, Founder and Chief Executive Officer of Conexus, said, "The equity investment from KSTC is occurring at the perfect juncture as Conexus is on the cusp of monumental growth moving from a local focus to a national presence. By applying the KSTC funds, in addition to private investment, Conexus will continue to achieve milestones set forth in the business plan. We look forward to utilizing the funding to its full potential, to continuing our relationship with the KSTC, and providing economic growth to our state."

About Kentucky Science and Technology Corporation

The Kentucky Science and Technology Corporation is a private, nonprofit corporation committed to the advancement of science, technology and innovative economic development founded on Kentucky know-how.
